

Mechanic Assistance Application

App Overview:

MechConnect is a mobile application designed to help users find and book nearby mechanics for on-demand assistance. It serves both users (vehicle owners) and mechanics by connecting them through a location-based service.

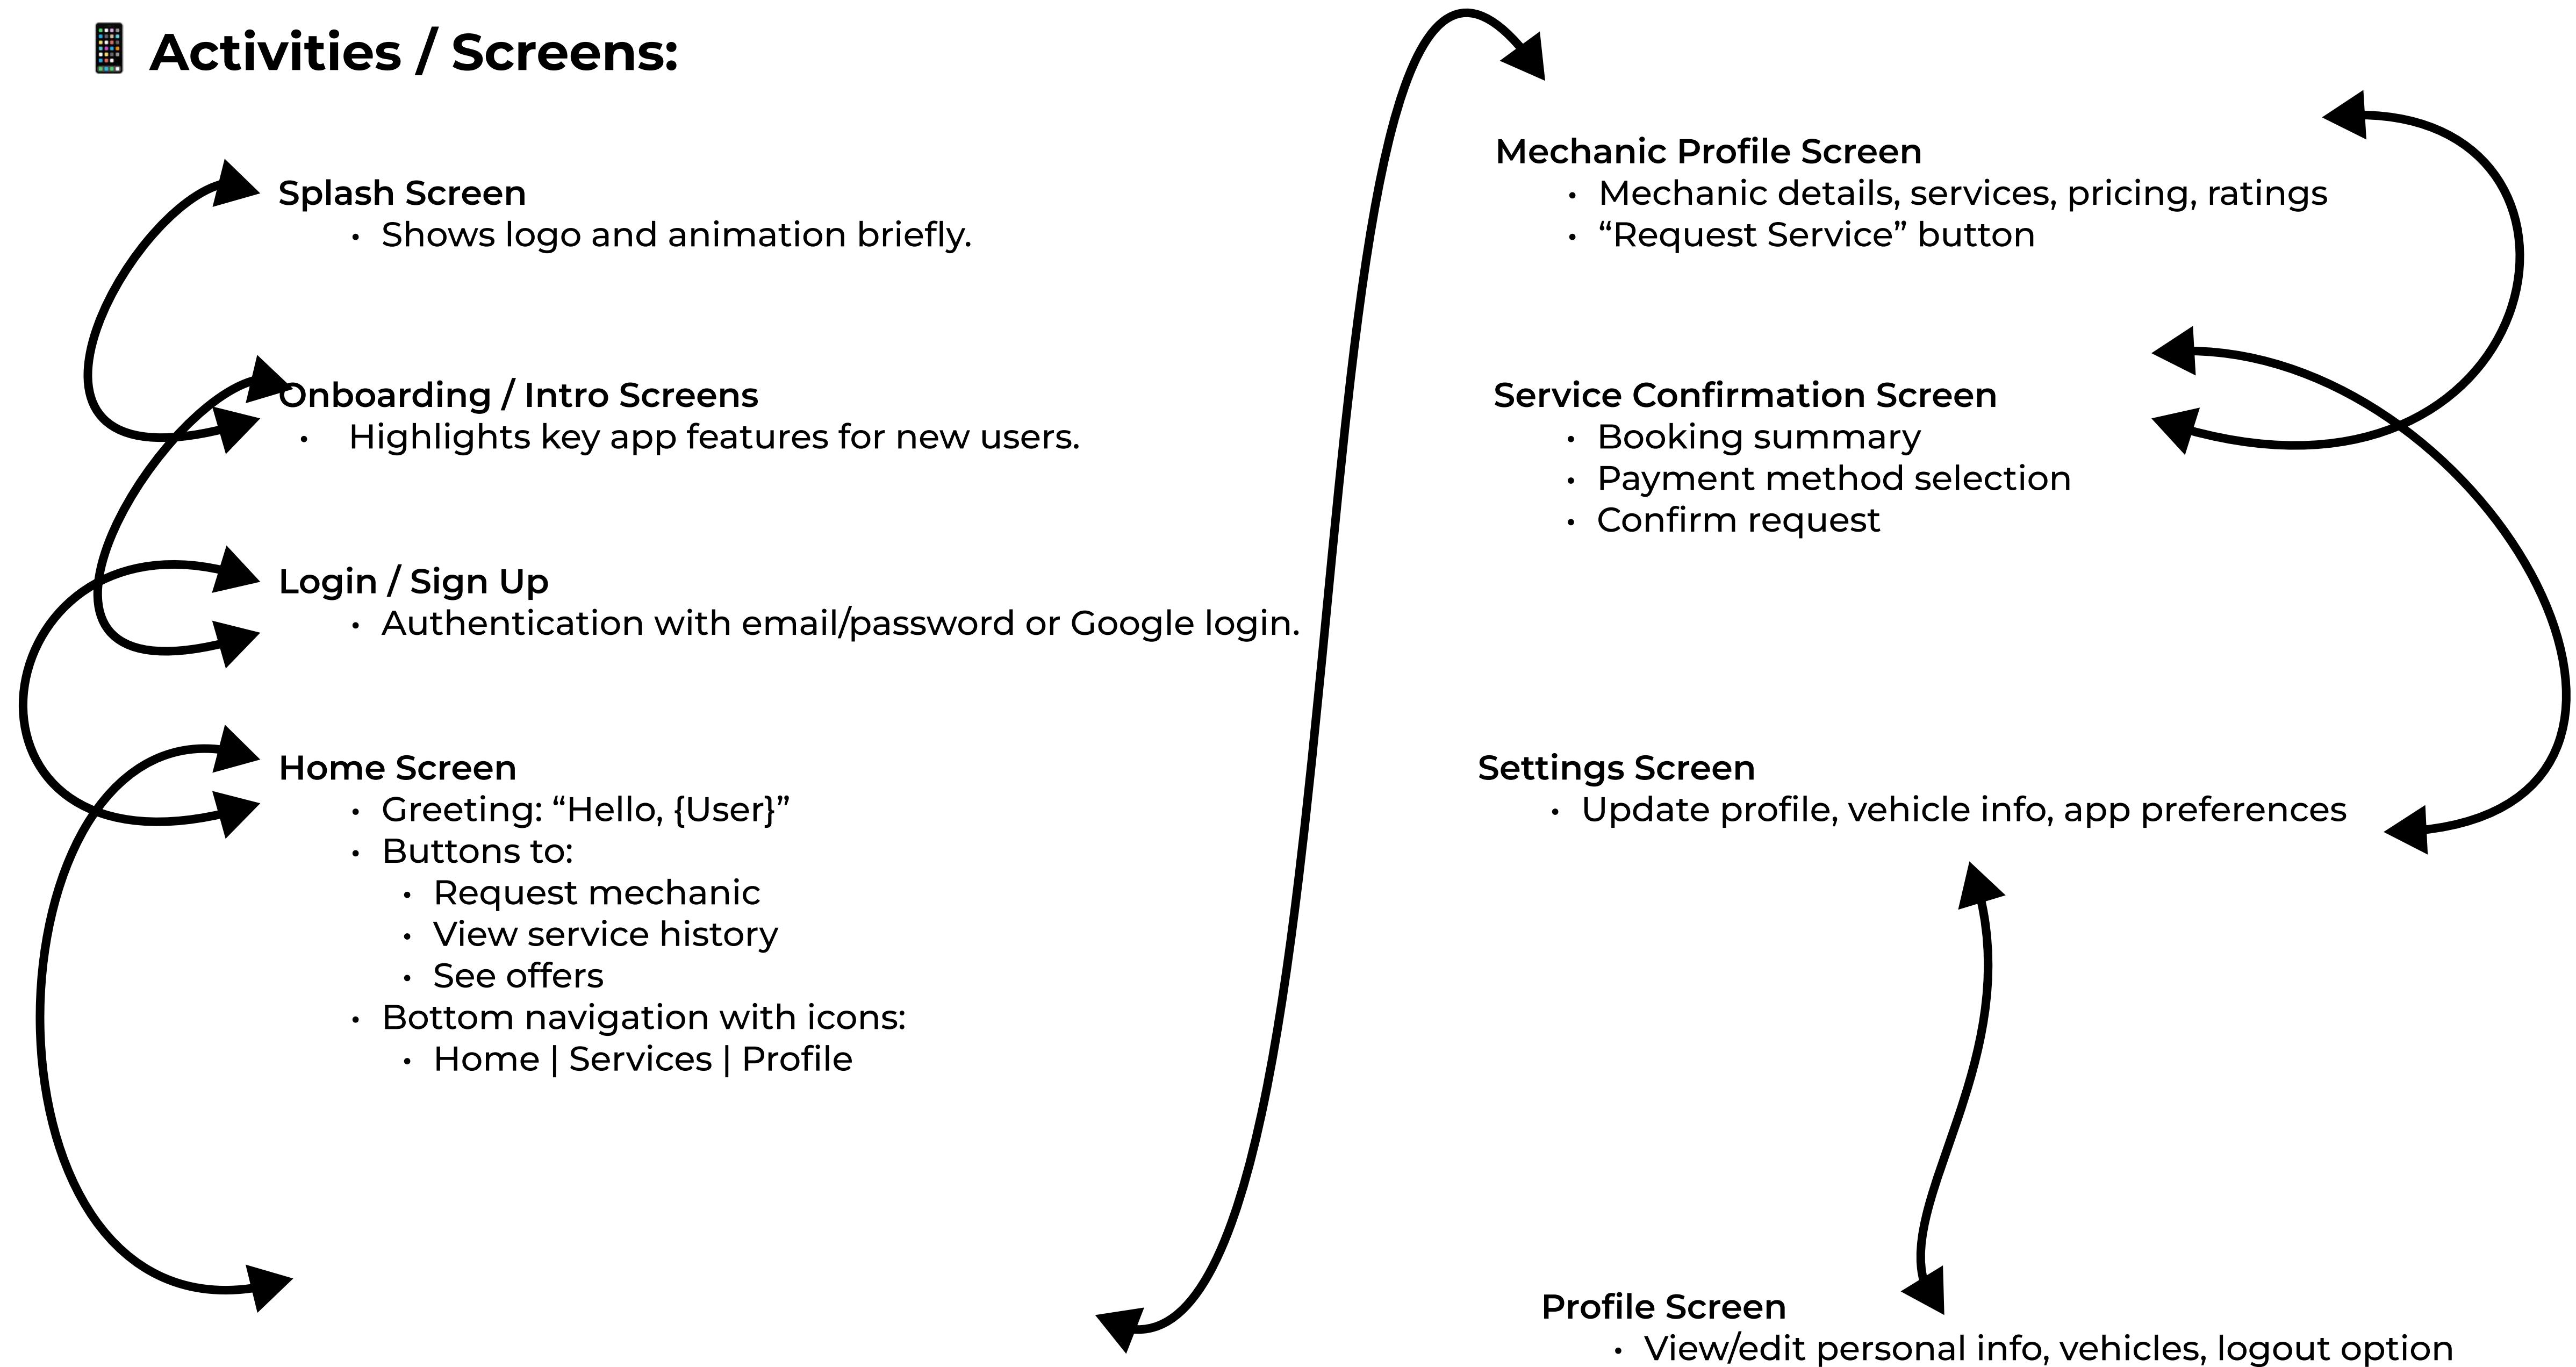

App Objectives:

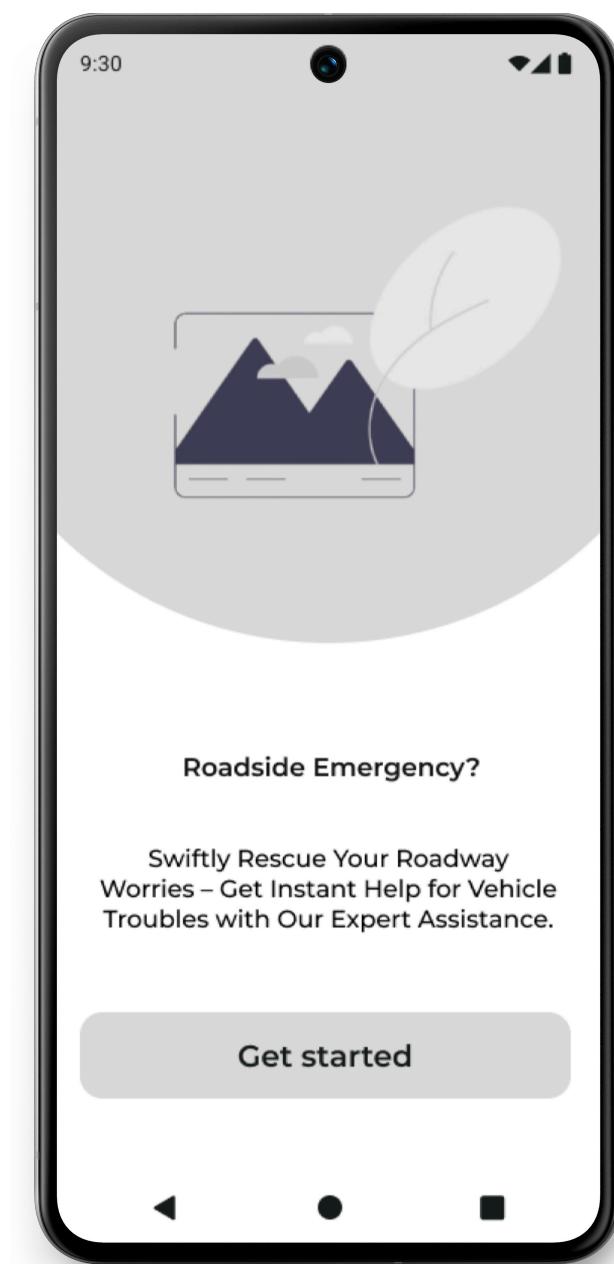

- Help users locate the nearest verified mechanic quickly.
- Allow users to request services and receive cost estimates.
- Enable mechanics to accept requests, track jobs, and manage profiles.
- Build trust with ratings/reviews and service history.
